Pecan Culture.

Col. J. H. Estill, proprieter of the Savannah Morning News, who has contributed a valuable series of letters

giving the history and development of the various counties of Georgia,

tells a marvelous story of the profits of growing pecans in Decatur county.

He stated that Mr. John Wood last year secured 1,000 bushels off 1,000

young trees, for which he received

\$5,000. This year it is estimated that he would get 10 bushels to the tree, which at the same price would bring

him \$50,000. This seems almost in-

credible, and puts orange growing in

These all had to be fed, clothed and transported. This immense call of troops was intended to produce prosperity. No doubt our 25 thousand of standing army, backed by the navy, could have run the Spaniards out of Cuba in six months. Gen Winfield Scott took the city of Mexico with less than ten thousand men.

Till Now, Mr. Editor, bear in mind that these people stood aghast in 1896 at the thought of free coinage of silver, which they said would flood the country with fifty-cent dollars. By the logic of their own argument, they have flooded the country with 25-cent dollars, for the largest amount of money free coinage could have given us would have been 50 or 60 millions per annum-while they have actually turned loose 126 millions per annum for the last five years, coining so late hin the past October two and one-The millions of silver dollars and October of last year two and three-

Mrs. C. W. Jacocks of Orlando, who grows what are probably the finest pecans in America, recently shipped to the Texas Pec :n Seed Company at Ft. Worth, Tex., a sack of pecans weighing 105 pounds. For 100 pounds of these she received \$1 per pound, and for five pounds she received \$3 per pound, making a total of \$115 for the shipment. Beat that who can.

John Neel in his paper, the Westville Advocate, has this to say of his recently incorporated town and its police officer: "Well, yes, it looks ike we were incorporated. You ought to see the policeman marching around with a tin star on the lapel of his coat and a home made club swung around his arm. My! don't he look vic. us. Wish some one would fight just to see what he would do."

A young fellow arrived in Miami last week, registered at the hotel as J. W. Beckham, Frankfort, Ky.," delighted the town, and was the re cipient of various kind offices by those who "queer" the mighty. A day or two later it developed that Governor Beckham was still in Kentucky and the masquerador was arrested.

Following the lead of the Florida Cast Coast railway, the Seaboard Air Line, on Christmas day, announced that the passenger rate had also been reduced to 3 cents a mile. The Atlantic Coast line is now the only large road in the state charging more than 3 cents per mile. It is generally thought that the Railroad Commission will direct a 3-cent rate on this road and the Southern, unless they voluntarily grant the rate already given by the F. E. C. and S. A. I., roads.

BIG POTATO CROP.

It is estimated that the spring crop of Irish potatoes raised in St. Johns county this year will approximate 60,-000 barrels. At the price which they will bring laid down at the railroad for shipment, the amount the farmers will receive will exceed the net returns for the orange crop of St. Johns county in its palmiest days.

TOM SAWYER PROBLEMS.

Three men start out to become govrnor of Florida. Frat : Harris leaves Ocala at 7 o'clock Saturday morning valking at the rate of 11 miles per day; Bob Davis starts the night before from Palatka, going 14 miles a day or so long as the walking is good, and Duncan Fletcher starts out from Jacksonville Sunday morning after break-fast, riding a bicycle which slipped a cog before he got to Baldwin, how long will it take these men to reach Tallahassee, and what horse power will each develop in the expression of his individual feelings should they find Billy Sheats already in possession? This is rather a difficult sum for beginners and should not be undertaken on a full stomach.)

Three women attended a meeting of the Ladics' Aid Society. Mrs. J. has a working capacity of 87 words per minute; Mrs. S. 99\(\frac{1}{2}\) per minute and Mrs. W. 114 words. How many words will all three perpetrate in the words will all three perpetrate in the hour and a quarter of the meeting if all talk at once, and how far will the

good cause be advanced? If the governor of Florida traveled 77,000 miles during the first half of his term, and was absent from his office 180 days, how far will he be obliged to travel to reach the U.S. Senate, with John Stockton and Jim Taliaferro crossing his track every half hour? (This sum is done by the rule of three.)
